Introduction

A Note on the Organization of This Book

There are a few signals that will help you understand the organization of this book. Once you know them, you should be able to find your way around easily.

Like a newspaper, this book is formatted with columns of text and illustrations that run vertically.

Information wraps from one column to the next and continues for as many pages as it needs to.

Black bars are clues.

A black bar at the top of a page signals the start of information about a product.

This information is divided into two sections, each signaled by a black bar. Product Information includes a description, additional notes, and dimensional drawings. Specification Information, which always begins at the top of a column, includes a series of steps. Each step represents a decision you need to make in order to complete your product number. Steps must be followed sequentially. The number of pages needed to complete information on a product varies; some will be complete in one page; others may fill three or four pages. Just continue going through the steps until you run into the next product, signaled by the black bar at the top of the page.

Black tabs running along the outside edge of the page help you locate what section you are in or what section you want to go to. You can thumb forwards or backwards to find a section; tabs and text appear on both sides of the page.

The additional pages in the back of the book include the appendices and indices. They are signaled by a long black bar running along the outside edge of the page.

The index is presented two ways.

The first index is in alphabetical order by product name. It can be helpful if you are new to the products and numbering scheme or if you are looking for a type of product, such as work chair or round table.

The second index is by product number. It lists, in alphanumeric order, the base product number, typically a five-digit number.

General Information

This book is effective October 7, 2024, subject to change without notice. Products may be purchased from authorized Herman Miller dealers who will quote prices upon request. For more information about our products and services or to see a list of dealers, visit www.HermanMiller.com.

All prices are list prices. Additional services, such as planning services, design, storage, and installation, are not included and must be added to these prices when the additional services are requested.

Illustrations, specifications, and prices are based on the latest information at the time of publication. The right is reserved to make changes at any time without notice in prices, fabrics, finishes, materials, specifications, and models, and also to discontinue models and finishes.

Dimensions shown in the drawings are engineering drawing dimensions rounded up to the nearest $\frac{1}{8}$ ". Product is shipped set up or knocked down. Products that include "Shipped knocked down" in the description require some assembly. If this statement does not appear in the description, the product is shipped assembled.

Service problems are normally handled by a Herman Miller authorized dealer. Where this cannot be accomplished on a local level, service problems should be referred to the Customer Care Representative for your region, Herman Miller, Inc., Zeeland, Michigan 49464.

Product Information

Description

This structural sound-barrier panel has fabric surfaces, a painted top cap, cable management side covers, and adjustable glides. Panel is UL listed.

The panel has a Class A fire-retardant rating.

The powered panel has a factory-installed electrical harness that distributes double-sided, 4-circuit power within a cable management raceway. Electrical components are UL listed and CSA certified.

Notes

To connect panels of equal or unequal heights, order 1 of the following products separately:

- 2-way 90° connector (A1220.), 3-way 90° connector (A1230.), or 4-way 90° connector (A1240.)
- Draw rod (AO215.) or change-of-height draw rod (AO219.)
- Spacer (A1260.)

For information, see Action Office Series 2 Planning Guide.

To finish exposed end of panel or connector, order 1 of the following products separately:

- Change-of-height finished end, panel/connector (AO259.)
- Finished end (A1271.)

To convert nonpowered panel to powered panel, order base power adapter (A1354. or A1355.) separately.

For powered panel, order 4-circuit receptacle (A1311.) separately.

For power configuration (R), 24"-wide (24) and 30"-wide (30) panels have 1 receptacle location per side; all other power configurations have 2 receptacle locations per side.

For cable capacity information, see Cable Capacity Charts in Omni.

For applications requiring heavy component loading on panel, a component brace (A3910.) is recommended; order separately. For appropriate applications, contact local Herman Miller representative.

Action Office® Series 2 Walls

Product Information

Description

This connector joins 4 panels of equal or unequal heights at 90° angles and has an enameled surface. It does not require a cable management side cover.

Notes

When connecting panels of unequal heights, specify connector height to match height of highest panel.

When using a 67"-high connector with a 62"-high panel, order connector through Herman Miller Options. 67"-high connectors do not allow for this 5" change-of-height application due to hole pattern locations.

To finish exposed end of connector, order change-of-height finished end, panel/connector (AO259.) separately.

When specifying panels with cable/energy barrier, order cable/energy barrier connector (A1381.4) separately.

Action Office® Storage

C-Style Flipper Door Unit

X3750.

Product Information

Description

This curved-front storage unit hangs from the following products: Action Office® Series 1 or Series 2 panel or wall strips; Canvas wall-based frame or wall strips; or Ethospace® on- or off-module frame, off-module upper tile, or wall strips. It combines a flipper door and a 13 3/4"-deep shelf to enclose binders, files, and other items. The unit has a painted door that opens over the case and 2 door mechanisms: a standard mechanism or a lift-assisted mechanism. A lift handle can be specified to enable easier lifting and closing of the flipper door. The underside of the shelf accepts a task light. Attachment hardware is included. Shipped knocked down.

Storage units can hang from 2 panels or 2 frames with a combined width of 36", 42", or 48". The 36", 42", and 48"-wide units can also span more than 1 Ethospace off-module upper tile.

Vary Easy Program

GSA

Program Overview

The Vary Easy program offers expanded product selections beyond what is available through our standard offering. From expanded material and finish lists, to size availability, to completely new product configurations, the Vary Easy program offers it all at standard pricing, warranty, and lead-time.

Specifying Vary Easy using Made-to-Measure Plus

Vary Easy products are now available by clicking the Vary Easy/Options tile in the Made-to-Measure Plus tool.

Made-to-Measure Plus is a web-based tool available through Omni that takes the guesswork out of specifying products and service parts. It's quickly evolving to become your one-stop shop for specifying Herman Miller products and service parts, particularly customized product like Vary Easy and HM Options.

Vary Easy products are no longer published in marketing SIF for importing into specIT and other third-party specifiers. Specifying through the Made-to-Measure Plus tool allows us to make frequent updates and offer more complex products. It allows you to easily specify and price products and download SIF files to import into your specification tool. The acknowledgement process for Vary Easy products is the same as for any standard order. Vary Easy products ship with a standardized lead-time and are competitively priced.

For step-by-step instructions, reference the Made-to-Measure Plus page under Tools & Resources on Omni to watch the how-to video and to see how easy it is to specify Vary Easy products in Made-to-Measure Plus.

For Vary Easy product and specification questions, contact Product Services at 866 854 3048 (ext #1).

For technical questions about the Made-to-Measure Plus tool, contact Sales Technology Support at 866 854 3048 (ext #4) or sts@hermanmiller.com.
