

# Pullman Booth Snug privacy in a comfortable, collaborative setting.

British pullman carriages were the pinnacle of private luxury during the golden age of rail travel, and now we've updated the concept for modern commercial settings, creating a high quality, drop-in furniture solution that creates a bubble of seclusion in open spaces. Like the original pullman carriage, it's built to last, engineered without compromise for tough, long-lasting performance.

Purpose-built for busy offices, education and hospitality spaces, the Pullman Booth elevates the carrel concept with its unique good looks, customisable finish and adaptable design. This high-backed, wrap-around collaboration space comes in two- and three-seat versions and in two widths, bringing intimate comfort in a compact form.

Pullman Booth enables breakout sessions and small meetings by providing a luxuriously intimate space in which to work alone or gather together. It's ideal for connecting, collaborating or simply chatting over a coffee. The booth fuses high-backed sofas with a built-in table and an upholstered, wraparound screen to form a cosy retreat. This is the perfect place for quiet conversations and focused interactions free from outside interruptions.

Catering to all kinds of work, Pullman Booth facilitates video conferencing and online meetings, thanks to the neat cable management and power access. Optional extras include a monitor bracket for mounting a screen, as well as a magnetic whiteboard for brainstorming sessions.

Pullman Booth comes in two- or three-seat versions, and in a standard setting or wide for extra comfort and more open access. It's available in a host of different fabrics and colours, with base legs and frame options in black, white or powder-coated coloured steel, as well as solid oak or walnut. This booth is a member of the Pullman family of refined yet sturdy high-backed seating solutions, a furniture collection that's designed to give people the privacy they sometimes need in busy, high-traffic areas.

# Technical Specification

## Servicing

If a component is damaged, we will be happy to facilitate any replacements that are required. Please email our team with an image of the damaged part and reference your order number.

## Warranty

NaughtOne offers a 10-year warranty across all products. Details on the terms and conditions of NaughtOne's warranty can be found at [www.naughtone.com/warranty](http://www.naughtone.com/warranty)

## Flammability

The cold cure foam material has been tested to meet the following standards:  
British standard: 5852:2006 Part 2  
California Technical Bulletin: 117-2013  
Italian standard: UNI9175-CLASS 1.IM

The flammability standard of the covering fabric is dependent on the choice made by the customer. Details of the flammability rating of specific fabrics can be found on supplier websites.

## Testing

Our chairs are designed to meet or exceed all EN performance requirements as per BS EN 16139:2013, which includes the following tests:

- Seat and back static load test
- Seat front edge static load test
- Vertical static load on back
- Foot rest and leg rest static load test
- Arm sideways static load test
- Arm downwards static load test
- Vertical upwards static load on arm rests
- Seat and back durability test
- Seat front edge durability test
- Leg forward static load test
- Leg sideways static load test
- Seat impact test
- Back impact test
- Arm impact test

These attributes can help you to achieve criteria towards LEED, BREEAM, Ska and WELL building certifications.

FSC® certified products available upon request (FSC® C134222)

NaughtOne offers PEFC certified products

Where sustainable sources are quoted and a chain of custody is required by a customer, this must be indicated on the purchase order to NaughtOne. A chain of custody requested after an order has been placed or delivered may be difficult to recover.

Figures stated in this document may vary based on model and options selected. We have based this document on a specific example when produced in the United Kingdom. Recycled content calculations are taken from supplier information and industry averages. Material variables are likely to affect the figures which may result in higher or lower percentages.

This document will be reviewed and updated periodically and is subject to change without notice.

# Product Sustainability Statement

The Pullman Booth is available in a range of sizes, configurations and finishes but for the purpose of this document we have a specific example from the range: Pullman 3 Seat Booth with steel legs.

## CSR Statement

We care a great deal about the sustainability of our products. At every stage of the process – from design to manufacturing to shipping – we seek to minimise our environmental impact. Our 10-year warranty speaks of our commitment to making quality, durable furniture that does not need to be regularly replaced. We offer FSC® certified upholstered products and use recycled metals in our table ranges. We have manufacturing facilities in North America to reduce freight miles in our largest market and we offer an innovative Take-Back Programme that enables clients to return products to us at their end of life so we can recycle the parts. We are proud of what we have done, but we are ready to go further.
