

AAC 220

PRODUCT FACT SHEET

AAC 220

DESIGN BY HEE WELLING, 2022

Featuring a swivel base in aluminum, the AAC 220 has a slightly more formal expression than the other variants in the series. Retaining the fundamental idea shared by the AAC collection, this model is characterized by a curved shell with a slightly higher back. Designed with optimal functionality in mind, the shell construction offers a deep, generous seat that combines inviting aesthetics with a high level of comfort, whilst the lower armrests provide good support and enable the chair to fit underneath a table or desk. The base is available in either polished or powder-coated aluminum, with the post-consumer recycled plastic shell offered in a wide palette of contemporary colors and multiple front upholstery options. The multitude of variants and design combinations give this series a versatile expression that makes it suitable for a wide variety of corporate, private, and public contexts.

HIGHLIGHTS

- Part of a multi-functional indoor family of dining and conference chairs, office chairs, bar stools, lounge chairs, tables, an ottoman, and a sofa.
- The curved shell has a slightly higher back and a deep generous seat.
- Lower armrests offer good support, whilst enabling the chair to fit underneath a table.
- All shells are made from 100% recycled post-consumer plastic.
- A majority of the unupholstered models are certified with the EU Ecolabel across the whole chair and bar stool series.
- Available with full upholstery, a standard and a soft quilted version in all standard fabrics and leathers.
- The aluminum base comes in two finishes.
- Other base options are: Molded plywood base, solid wood base, 4-leg steel tube base, and 5-star swivel base with wheels and gas lift.
- Suitable for a wide variety of private and public environments.
- Qualified for contract use.

DIMENSIONS

WIDTH 59 CM
DEPTH 54 CM
HEIGHT 82 CM
SEAT HEIGHT 46,5 CM
SEAT DEPTH 42 CM

MATERIALS

SHELL

Injection molded solid-colored polypropylene shell with armrest. Made from 100% post-consumer recycled PP.

BASE

4-star swivel base in cast aluminum.

GLIDER

Plastic. Standard on all variants. Suitable for all flooring types that are not too sensitive.

OPTIONS

Felt gliders for wooden floors

The shells consist of 100% recycled post-consumer plastic from household machines. The use of recycled material means that colors vary slightly from batch to batch. Marks and irregularities on the surface are a natural part of the material and may occur.

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimize our environmental impact. We optimize the use of sustainable materials such as recycled materials, FSC-certified wood, and water-based lacquer, with a growing number of eco-certified products. We have strict regulatory requirements, and the majority of our products are tested to comply with international standards for strength, durability, and safety.

WARRANTY

HAY provides a 5-year product warranty.

Please contact the HAY sales team for further information about the warranty terms and conditions.
